### QUALITY POLICY AND PRINCIPLES

**We are caring for life** and are committed to **increasing the quality & efficiency of healthcare** for a growing number of people. We achieve this by **reliably** providing **affordable, high-quality, safe as well as effective products and services** to Healthcare Professionals and patients.

Our products and our services, as well as the commitment and dedication of our employees, are focused on the critically and chronically ill patients inside and outside the hospital.

In order to fulfill the required quality and safety standards of our products, the company maintains a Quality Management System designed to increase transparency, improve internal processes and allow the company to become more effective.

This system guarantees full compliance with national and international legal requirements and meets the expectations of our partners and customers.

We carry out this commitment by:

- **Embracing** customer, user and regulatory expectations & **requirements** while consistently **meeting or exceeding these** in design, manufacturing distribution, and services.
- Striving to manufacture our products **right, in time and in compliance with the requirements**.
- **Monitoring** product & patient **safety** continuously.
- **Maintaining** a transparent, well-documented, controlled, and regulatory compliant **Quality Management System while continuously improving** its suitability, adequacy and effectiveness.
- Having a **competent, well-trained organization** with clearly defined **responsibilities & authorities**.
- Pursuing **continuous improvement** and effective risk & information management.

The quality of our products and services as well as adherence to the Quality Management System is the **responsibility of each employee** and essential for the achievement of our quality objectives.

This policy is made available and communicated to all employees, management, stakeholders and other interested parties and is to be displayed at different locations of FKOL premises in both English and local language.
